Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3622

1. Claims 1-16 have been examined. Application 09/876,504 (ELECTRONIC COUPON AND CUSTOMER DATA ACQUISITION APPARATUS AND METHOD) has a filing date 06/07/2001.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Electronic savings card system is not defined and does not perform intended use of electronic savings.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Freeman et al (U.S. 6,450,407).

As per claim 1, Freeman teaches:

An electronic savings card system, the system comprising a portable electronic device having unique personal identification data stored therein (see column 12, lines 17-22; column 14, lines 35-47; column 12, lines 3-9).

As per claim 2, Freeman teaches:

The system of claim 1, further comprising a store register (see figure 2, item 116; column 19, lines 15-25; column 7, lines 7-38).

As per claim 3, Freeman teaches:

The system of claim 2, wherein the portable electronic device transmits the personal identification data to the store register (see column 14, lines 35-50; column 16, lines 5-15).

As per claim 4, Freeman teaches:

The system of claim 3 wherein the portable electronic device comprises a cellular telephone (see column 8, lines 20-35; column 10, lines 15-32).

As per claim 5, Freeman teaches:

The system of claim 4, wherein the store register discounts a price of a product as a result of receiving the unique personal identification data (see column 7, lines 7-24).

As per claim 6, Freeman teaches:

A method of acquiring customer data, the method comprising the steps of:

a. providing a portable electronic device having unique personal identification data stored within, wherein the portable electronic device comprises a means of

Art Unit: 3622

transmitting the unique personal identification data (see column 14, lines 35-50; column 16, lines 5-15);

b. providing a store register capable of receiving the unique personal identification data (see column 8, lines 21-34; column 10, lines 15-31);

c. transmitting the unique personal identification data from the portable electronic device to the store register (see column 10, lines 15-31); and

d. discounting a price of at least one product upon receipt of the unique personal identification data (see column 7, lines 7-24).

As per claim 7, Freeman teaches:

The method of claim 6, further comprising the steps of:

a. providing a central computer (see figure 1);

b. transmitting the unique personal identification data to the central computer (see column 14, lines 35-50; column 16, lines 5-15) and

c. cross referencing the unique personal identification data with a stored data profile (see column 13, lines 44-55).

As per claim 8, Freeman teaches:

The method of claim 7, further comprising the steps of:

a. transmitting product data from the store register to the central computer (see column 14, line 64 – column 15, line 12); and

b. storing the product data with a cross-reference to the unique personal identification data (see column 14, lines 64 - column 15, line 15).

As per claim 9, Freeman teaches:

The method of claim 7, wherein the product data is used for inventory management (see column 15, lines 1-12).

As per claim 10, Freeman teaches:

A method of acquiring customer data, the method comprising the steps of:

- a. providing a store register capable having unique store identification data stored within, wherein the store register comprises a means of transmitting the unique store identification data (see column 7, lines 7-38);
- b. providing a personal electronic device capable of receiving the unique store identification data (see column 10, lines 15-33);
- c. transmitting the unique store identification data from the store register to the portable electronic device (see column 7, lines 7-38); and
- d. discounting a price of at least one product upon successful transmission of the unique store identification data (see column 7, lines 35-38).

As per claim 11, Freeman teaches:

The method of claim 10, further comprising the steps of:

- a. transmitting the unique store identification data from the personal electronic device to a remote computer (see column 14, line 35 – column 15, line 12);
- b. transmitting customer data from the personal electronic device to a remote computer (see column 14, line 35 – column 15, line 12); and
- c. transmitting product data from the personal electronic device to a remote computer (see column 7, lines 8-37; column 10, lines 15-33).

As per claim 12, Freeman teaches:

The method of claim 11, further comprising the steps of:

- a. processing the unique store identification data, the customer data and the product data (see column 7, lines 7-38; column 14, line 35 – column 15, line 12); and
- b. producing a report with the unique store identification data, the customer data and the product data listed in an organized format (see column 14, line 64 – column 15, line 12).

As per claim 13, Freeman teaches:

The method of claim 12, wherein the personal electronic device comprises a cellular telephone (see column 8, lines 20-34; column 10, lines 15-33).

As per claim 14, Freeman teaches:

The method of claim 13, wherein the store register is linked to at least one other store register via a network (see figure 1).

As per claim 15, Freeman teaches:

The method of claim 14, further comprising the step of distributing advertising literature based upon the report (see column 14, line 63 – column 15, line 12).

As per claim 16, Freeman teaches:

The method of claim 14, further comprising the step of using the report for inventory management (see column 14, line 63 – column 15, line 12)
